

## simple

Marian Hill

I know what you wanted  
That's not what you get  
I've been bored for hours baby  
I can get the check

I can call my car  
I'll get one for you too  
I don't wanna see you when I look in my rearview

I don't really care what you do, what you do  
I have more fun reading the news, the news  
I don't really care what I'll do, I'll stay in  
If we were stranded on an island guess I'd have to learn to swim

But it's not that simple  
No, you won't take my hint though  
Wish you wouldn't call me so many times  
If I had to go, it would be alright  
If I said no, it would mean goodbye  
But it's not that

So I went to leave  
And you followed me out  
Now I'm at the curb and you won't shut your fucking mouth  
Where the hell's my car  
It says it's six away  
I'd rather pull my hair out than hear what you've got to say

I don't really care how you feel, how you feel  
I had more fun leaving my deal, my deal  
I don't really know how I feel so again  
If we were stranded on an island guess I'd have to learn to swim

But it's not that simple  
No, you won't take my hint though  
Wish you wouldn't call me so many times  
If I had to go it would be alright  
If I said no it would mean goodbye  
But it's not that

But it's not that simple  
No, you won't take my hint though  
Wish you wouldn't call me so many times  
If I had to go it would be alright  
If I said no it would mean goodbye  
But it's not that simple
