

Otherside

Maribou State

You put me on the other side
Got me on b-roll
Tell me the reason why
You're keeping it so cold
I was up there but
Another cut knocked me off the ladder
Now, I'm down on the slip 'n' slide
And I can't keep a hold

Used to nod at me and be into the view
Used to nod and lean into me, until you changed mind

All the things you do
All the time, baby
And you put me on the other side
All the things you do
All the time, baby
Na, you put me on the other side

Hung me out to dry there
Tell me the reason why
Courtesy one liner
After all this wait, you don't rate
I don't like you neither
Dipped and the tip denied
Na, you put me on the other side

Used to nod at me and be into the view
Used to nod and lean into me, until you changed mind

All the things you do
All the time, baby
Na, you put me on the other side
All the things you do
All the time, baby

After all this wait you don't rate
I don't like you neither
All the time, baby
Dipped and the tip denied
All the things you do
Na, you put me on the other side

I feel
I'm getting stronger by now
Getting stronger
Getting stronger by now
I feel
I'm getting stronger by now
Getting stronger
Getting stronger by now
I feel
I'm getting stronger by now
Getting stronger
Getting stronger by now
I feel
I'm getting stronger by now

Getting stronger

Na, you put me on the other side
All the things you do
All the time, baby
You put me on the other side
All the things you do
All the time, baby

I was up there but
Another cut knocked me off the ladder
All the time, baby
Now, I'm down on the slip 'n' slide
All the things you do
Uh, you put me on the other side
