

# Alive

Marié Digby

I'm sinking deep in my memories  
Of days wasted on you  
I can't believe that I couldn't see  
Just how much harm you were inflicting on me

But now that you're gone  
I'm moving right along

I feel alive  
I'm never gonna let you pull me down  
I'm never gonna let you stick around  
I feel alive  
I feel alive

I give, you take, that's the policy  
In these twisted rules you've made  
It makes me sick just to think of you  
And all the nasty things you used to do

But now that we're done  
I'm moving right along

I feel alive  
I'm never gonna let you pull me down  
I'm never gonna let you stick around  
I feel

You're a sick (a kind of liar)  
You're a fool (for thinking I was done yea)  
I'm not done (I'm only getting started)  
Watch me now 'cause I finally feel alive  
I feel alive

I feel alive  
I'm never gonna let you pull me down  
I'm never gonna let you stick around  
I feel alive

I'm sinking deep in my memories  
Of days wasted on you
