

Feel

Marié Digby

Feels like I spent all this time talking to walls
Feels like I gotta let go of the way it was before
Are you really there? Are you made of stone?
Am I talking to someone or am I here all alone

Are you alive, don't you feel, feel, feel?
Show me you're here, show me your tears
Don't you feel, feel, feel, feel?
Show me, hold me, speak up and tell me something
Change my mind before it's too late
Are you alive, show me you're human
Can't you feel, feel, feel, feel?

Seems like you're stuck in a daze, slipping away, away
I'm sick of trying to reach you, can't you say what's on your mind
Baby we're losing the race to far behind, behind
Tell me that I'm not the only one who can try, who can fight the wall

Are you alive, don't you feel, feel, feel?
Show me you're here, show me your tears
Don't you feel, feel, feel, feel?
Show me, hold me, speak up and tell me something
Change my mind before it's too late
Are you alive, show me you're human
Can't you feel, feel, feel, feel?

Sometimes the words they don't get through
What really speaks is what you do
Open up, let me inside, just wanna find you

Are you alive, are you, are you?
Show me you're here, show me your tears
Don't you feel, feel, feel, feel?
Show me, hold me, speak up and tell me something
Change my mind before it's too late
Are you alive, show me you're human
Can't you feel, feel, feel, feel?

Whoa, wake up, are you dead?
