

Jet Streams

Marié Digby

Life goes on as usual
To my ears it's just noise
You're the only thing in focus
The rest is a blur I suppose that
This is what happens
This is how it feels

To be, be two jet streams in the sky
You and me intercepting
Crossing with the jet streams

You have taught yourself to feel
Pushing moments
Whereas I can never shut it off
Overflows like a river
But it doesn't seem to scare you away
I hope that we'll stay

To be, be two jet streams in the sky
You and me intercepting
Crossing with the jet streams

Be jet streams

Jet streams in the sky
You and me intercepting
Crossing with the jet streams
Jet streams
Crossing with the jet streams
