

Kings and Queens

Marié Digby

I'll taste the poison for you
So you adore me, so you adore me
I'll build a castle with you
Give you my loyalty, treat you like royalty
And when I kiss your lips
I'll fill the emptiness, just keeping holding

We could be kings and queens
We could have it all
We could build walls that stop the cannonballs
Give me your seeds of dreams
And we'll watch them grow
I'll be everything you need
Just never let me go, never let me go

Help me understand how you think
Don't want to own you, just wanna know you
Start telling lies and we'll sink
Your fears will come true
And I will leave you
And if I kiss your lips and sense the emptiness
That's my warning

We could be kings and queens
We could have it all
We could build walls that stop the cannonballs
Give me your seeds of dreams
And we'll watch them grow
I'll be everything you need
Just never let me go
Never let me go

We could be kings and queens
We could have it all
We could build walls that stop the cannonballs
Give me your seeds of dreams
And we'll watch them grow
I'll be everything you need
Just never let me go
Never let me go

Just never let me go
