

Help Me Get Over You

Marie Osmond

Desperately
I fell for you so desperately
I never even stopped to think
There'd be a price to pay

Now you're gone
And you say I should carry on
I'm finding out that's easier said than done
My heart won't work that way

So help me get over you
Break me from being true
Make me believe we're through
Don't leave me hanging on

Tell me you never cared
And I'll walk away I swear
If it's the last thing you do
Come back
And help me get over you

Memory
I wish that's all you were to me
Just as it used to be
The way I am to you
But every day I hurt for you the same old way
I guess it's true that time heals everything
But the heart of a fool

So help me get over you
Break me from being true
Make me believe we're through
Don't leave me hanging on

Tell me you never cared
And I'll walk away I swear
If it's the last thing you do
Come back and help me get over you
