

# It's Just The Other Way Around

Marie Osmond

You know they're telling lies  
I didn't let you down  
I never stopped loving you  
It's just the other way around

You know I'm not to blame  
Why must I play the clown  
I wasn't untrue to you, dear  
It's just the other way around

Friends won't let me explain  
I've a right to complain  
'Cos my foolish heart gets torn apart  
Each time they mention your name

Perhaps it's not too late  
A way may still be found  
I never stopped loving you, dear  
It's just the other way around

I never stopped loving you, dear  
It's just the other way around
