

Making Magic

Marie Osmond

It's no illusion
Or sleight of the hand I can feel it
Still I don't understand how it happens
Whenever you're near
The whole world disappears

It's amazing
This way that I feel
Look into you
I can see that it's real
It's no mystery
What's goin' on here

We're making magic
Out of the night no deceptions
No mirrors and lights
Just emotion
Somehow flowing
Between us two

Makin' magic
Out of thin air there's no question
Baby we've got a flow
It's all in the heart
It was clear from the start
Yes it's true
Magic me and you

Where's it come from?
Well I couldn't say seems to vanish
When you go away explanations
Why waste our time
When I'm yours and you're mine
While I'm waiting
The day drags on by
Time goes crawlin'
When I want it to fly
How much longer
Until you walk through the door?
And there's more

Makin' magic
Out of the night no deceptions
No mirrors and lights just emotion
Somehow flowin'
Between us two

Makin' magic
Out of thin air there's no question
Baby we've gotta flow
It's all in the heart
It was clear from the start
Yes it's true
Magic me and you

Makin' magic
Out of thin air there's no question

Baby we've got a flow
It's all in the heart
It was clear from the start
Yes it's true
Magic me and you

(Makin' magic)
Out of the night no deceptions
No mirrors and lights just emotion
Somehow flowin'
Between us two
Makin' magic
Out of thin air there's no question...
