

## Play the Music Loud

Marie Osmond

I know I gotta learn to live without you  
I know I've gotta stop thinking about you  
When I realized your love had left me  
I knew loneliness was out to get me  
Turning to the music as a hideaway  
Trying to lose myself within a song

Play the music loud  
Don't wanna think about my sorrow  
Play the music loud  
And help me reach for tomorrow  
Drown my tears away  
With all the music that you play  
Mr. DJ, play the music loud

I know you tell me it takes time to forget him  
I know he'll ruin my life if I let him  
When I am all alone and I start crying  
I know my broken heart is slowly dying  
Turning to the music as a hideaway  
Trying to lose myself within a song

Play the music loud  
Don't wanna think about my sorrow  
Play the music loud  
And help me reach for tomorrow  
Drown my tears away  
With all the music that you play  
Mr. DJ, play the music loud
