

Tell Me To Breathe

Marie Osmond

I grew up wishing on a star
But a broken heart is all I ever knew
Hope was gone
Locked in pieces of my past
Now all that's changed
Because of You

Tell me to breathe
God help me believe
That this moment is real
And I'm really a dream
This is where I become me
Right here and now
Tell me to breathe

Oh yesterday
Was dark and cold and grey
I prayed for the sun
To warm my life again
I was so afraid
I had nothing left to give
But I let go
'Cause that's when love begins

So tell me to breathe
God help me believe
That this moment is real
And I'm really a dream
This is where I become me
Right here and now
So tell me to breathe

Can it be I'm really here
Surrounded by Your love
I'm ready now to promise You
My hope, my life, my trust

Tell me to breathe
God help me believe
That this moment is real
And I'm really a dream
This is where I become me
Right here, right now
Tell me to breathe
Tell me to breathe
