

Think With Your Heart

Marie Osmond

When it comes to love darlin'
You can't stray far away
Don't let temptation steal your heart
Love's not a game to play
You think that you can have it all
But baby that's not true
You'll wake up with a heartache
In a world that's painted blue

When it comes to love
You can't think with your eyes
You can't think with your lips or hands
You can't think with your mind
When it comes to love
You leave the world behind
You can't be worried about
What others say
You can't think with your mind

You think with your heart
Think with your heart sweet darlin'
Think with your heart
Think with your heart sweet baby
Thinking with your eyes
Gets you in trouble every time
You'll never satisfy your appetite
You think that you'll be happy
If you leave my love behind
But it won't be long
Before you change your mind

When it comes to love
You can't think with your eyes
You can't think with your lips and hands
You can't think with your mind
When it comes to love
You leave the world behind
You can't be worried about
What others say
You can't think with your mind

You think with your heart
Think with your heart sweet darlin'
Think with your heart
Think with your heart sweet baby
Pain has no memory
Pleasure you can't forget
Once it gets inside your mind
Temptation takes control
And steals your heart and soul
When you start thinking with your eyes

When it comes to love
You can't think with your eyes
You can't think with your lips and hands
You can't think with your mind
When it comes to love

You leave the world behind
You can't be worried about
What others say
You can't think with your mind
