# come undone

**Marika Hackman**

I like it that you never let me stay the night
When we've got it on
Too much of anything is where it comes undone
We could come undone

I've been down for a little while
Now I've found I don't wanna get around

And I think that I love her, but I'm fucking another
It's enough to make a girl go to ground
(You shouldn't be up to this shit right now)
The way she needs this, it's making me feel sick
It's enough to make a girl get around
(I don't think you're up for this love right now)

Oh baby, I was waiting for the final straw
And then you gave me more
Too much of you is what has made me come undone
And I don't come undone

I've been down for a little while
Now I've found I don't wanna get around

And I think that I love her, but I'm fucking another
It's enough to make a girl go to ground
(You shouldn't be up to this shit right now)
The way she needs this, it's making me feel sick
It's enough to make a girl get around
(I don't think you're up for this love right now)

I've been down for a little while
Now I've found I don't wanna get around

So keep a cradle warm for me
I wanna be somebody's baby
So keep a cradle warm for me
I wanna be somebody's baby

And I think that I love her, but I'm fucking another
It's enough to make a girl go to ground
(You shouldn't be up to this shit right now)
The way she needs this, it's making me feel sick
It's enough to make a girl get around
(I don't think you're up for this love right now)
And I think that I love her, but I'm fucking another
It's enough to make a girl go to ground
(You shouldn't be up to this shit right now)
The way she needs this, it's making me feel sick
It's enough to make a girl get around
(I don't think you're up for this love right now)
