

## hand solo

Marika Hackman

Grease sheets, leave my right hand free  
It's hard to be alone  
Deep heat, turn the lights on in my hole  
I love this

My finger touch  
I've been feeling stuff  
Dark meat, skin pleat, I'm working  
Oh, monkey glove  
You threw away two pints of blood  
It's alright, I'm jerking

I love this  
Grease sheets, leave my right hand free  
It's hard to be alone  
Deep heat, turn the lights on in my hole

When I'm alone (Onanism)  
It's automatic, oh  
I dig for life in the eye of my thighs  
I can't believe petite mort  
I'm a slave at your door  
And I feel to be free, oh, the irony

When I go blind, will you keep in mind  
I had fun, I got it on  
Endorphins  
I gave it all, but under patriarchal law  
I'm gonna die a virgin

I love this  
Grease sheets, leave my right hand free  
It's hard to be alone  
Deep heat, turn the lights on in my hole

When I'm alone (Onanism)  
It's automatic, oh  
I dig for life in the eye of my thighs  
I can't believe petite mort  
I'm a slave at your door  
And I feel to be free, oh, the irony  
(I love this)
