

send my love

Marika Hackman

You look down
Are you happy now?
I lost it on the phone
Are you coming home to feel alone?
Did you love me tonight, or any night of our lives?
It's never gonna be like it was before
The writing's on the floor

Send my love
Send my love
Send my love
Send my love

One more time in the night, we get it on
One more time in the night and we give it all
To someone who believed it wasn't right and gave it up

Take a bow
Is your mother proud?
You're selfish and you're sore
Are you coming home to play the whore?
If you loved me tonight, you'd get the fuck out my sight
'Cause it's never gonna be we can start again
Strangers in my bed

Send my love
Send my love
Send my love
Send my love

One more time in the night, we get it on
One more time in the night and we give it all
To someone who believed it wasn't right and gave it up

Creased sheets, leave my right hand free, it's hard to be alone
Deep heat, turn the lights off in my home
Creased sheets, leave my right hand free, it's hard to be alone
Deep heat, turn the lights off in my home
Creased sheets, leave my right hand free, it's hard to be alone
Deep heat, turn the lights off in my home
Creased sheets, leave my right hand free, it's hard to be alone
Deep heat, turn the lights off in my home
Creased sheets, leave my right hand free, it's hard to be alone
