

the one

Marika Hackman

Sold out
I've given up my soul now
I thought that I could be unique
Fuck it, I am just so weak
Love me more
I need to be adored
(You're such an attention whore)
No, I'm just like you
But I can be your hero too

I'm not the one you want
I fucked it up with the saddest songs
I'm not the one you want
But leave it on, leave it on

Bow down
Vanilla and I'm proud now
They're saying I'm a godsent gift
And all you fuckers want my dick
Love me more
Rub me 'til my ego is raw
(That's not what we came here for)
I've got BDE
I think it's a venereal disease

I'm not the one you want
I fucked it up with the saddest songs
I'm not the one you want
But leave it on, leave it on

She likes to have attention
She longs for your affection
She likes to have attention
She longs for your affection

I'm not the one you want
(She likes to have attention
She longs for your affection)
I fucked it up with the saddest songs
(She likes to have attention
She longs for your affection)
I'm not the one you want
(She likes to have attention
She longs for your affection)
But leave it on, leave it on
