Vitamins

Marika Hackman

Mum says I'm a waste of skin
A sack of shit and oxygen
Empty seed in a can of earth
I'm a fucked up cradle for the afterbirth

But dad thinks I could be something
If I eat my vitamins

I could be up in a hall of fame
But if we're all special then we're all the same

We're not special and we're all the same

Polly is in love with this
An exercise in stupidness
I will go down in a shower of flame
'Cause I'm not special and you're all insane

We're not special and we're all the same
