

# The Space

Marillion

On top of the world like a flag on a mountain  
Feeling so high you can feel so alone  
Unable to breathe at the height that you flew  
Staring on clouds with no view of below

On top of a girl like a dream in a hotel  
Falling towards something out of control  
Unable to miss like the man in the tram  
Crashing your car in Amsterdam

He did it without knowing  
Didn't feel a thing  
Just wrecked it and kept going

**F#m**

The space around the stars

**D**

is something that you know

**F#m**

A billion miles of darkness

**D**

left you feeling low

**F#m**

The space around the stars

**D**

is something that you know

Everything about you  
So perfectly restrained  
But everything inside you  
Bites you...
