Give me your blood, your teeth
Your high school pictures
Your words can't begin to
Satisfy my needs (yeah)

Give me your hand I'll never
Give you flowers
Your touch can't begin to
Satisfy my...

I can't save you from me this time
You can't save you
Nothing comes between you and i

Don't know what you see
In my negativity
I know you know
It's one part you and three parts me (yeah)

Show me your scars
Show me your broken mirrors
Your dreams can't begin to
Satisfy my...

I can't save you from me this time
You can't hide from me
Can't hide what's inside, in your mind...

Don't know what you see
In my negativity
I know you know
It's one part you and three parts me (yeah)

Don't know what you see
In my negativity
I know you know
It's one part you and three parts me (yeah)

Always has been and always will be
Three parts me
