

Dancing With The Devil

Marina Kaye

Like fire beneath the ice
An inevitable demise
Standing on the edge jumping into hurt
Time and time again I will never learn

And I should cut all the ties
Let it burn and walk away from you
There's beauty in suffering
When you love someone you're scared to lose
I know I'm dancing with the devil
Ain't no chance of heaven
Going straight to hell
I know I'm dancing with the devil
Darken up my heaven
Brighten up my hell

Hear the sirens in the air
All the warning signs were there
When I feel your touch it burns my skin
Echoing sublime it spreads within

And I should cut all the ties
Let it burn and walk away from you
This predator I let in knows my heart
There's nothing I can do
I know I'm dancing with the devil
Ain't no chance of heaven
Going straight to hell
I know I'm dancing with the devil
Darken up my heaven
Brighten up my hell

This passion is a blasphemy
My second lung, my enemy
I know I'm dancing with the devil
Darken up my heaven
Brighten up my hell

I oppose my pride, my dignity
And this hold you got, It smothers me
In my narrow boots, on rocky ground
Is where my angels fly

I know I'm dancing with the devil
Ain't no chance of heaven
Going straight to hell
I know I'm dancing with the devil
Darken up my heaven
Brighten up my hell

This passion is a blasphemy
My second lung, my enemy
I know I'm dancing with the devil
Darken up my heaven
Brighten up my hell
My hell
Brighten up my hell
