

Dark Magic

Marina Kaye

Ladies and gentlemen
What you're about to see
I'm not proud of
I'm not proud of
I'm gonna bring the very best thing
That ever happened to me
Turn out strong love into wrong love

Super power born out of fear
This is how you wreck love my dear

For my next trick I'll make
Problems appear out of thin air
For my next trick I'll take
All of your trust make it disappear
It's a dark dark magic it's tragic
Cause you're the one
For my last trick I'll break
Both of our hearts and shower the scars with tears

Gather around, gather around
What you're about to see
I'm ashamed of
I'm to blame love
Got so scared of losing you baby
That I pushed you away
That's so rough
It's all I know love

Super power born out of fear
This is how you wreck love my dear...

For my next trick I'll make
Problems appear out of thin air
For my next trick I'll take
All of your trust make it disappear
It's a dark dark magic it's tragic
Cause you're the one
For my last trick I'll break
Both of our hearts and shower the scars with tears

As the curtain closes
There's no encore for us

It's a dark dark magic it's tragic
Cause you're the one
For my last trick I'll break
Both of our hearts and shower the scars with tears
