

Ghost

Marina Kaye

I've got a ghost by my side
I know you see her and I'm terrified
Wrapped in her arms I'm paralysed
If she wrecks your party I apologise

Cause there's no door to lock
When your stalker walks right through
There's nowhere to hide
When the haunted house is you

Oh, You think I'm crazy
But I'm all out of grace
And I know it's not pretty
But I'm trying to face
What I fear the most
Cause I'm not gonna run from my ghost

I tried to plead I tried to pray
Just let me breathe don't misbehave
I drink too much self medicate
Just made her stronger
'Til the whole room shakes
Cause there's no pride to lose
When your pain is in full view
And there's nowhere to hide
When the haunted house is you

Oh, You think I'm crazy
But I'm all out of grace
And I know it's not pretty
But I'm trying to face
What I fear the most
Cause I'm not gonna run from my ghost

Cause I'm not gonna run
Or try to hold it in
I have to come undone
For healing to begin
If I push it down
The haunting never ends
And I don't wanna run

Oh, You think I'm crazy
But I'm all out of grace
And I know it's not pretty
But I'm trying to face
What I fear the most
Cause I'm not gonna run from my ghost
