Yeah, look the other way  
'Cause this is not the game that you want to play

This is your fault that I'm insane  
How much will cost to get out my brain?  
To get out my brain  
Yeah

This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business

Yeah, look the other way  
'Cause this is not the game that you want to play

I'm tired of hearing your for your opinions  
Why haven't you learned to mind your business?  
Don't tell me how you feel 'cause I won't listen  
I will not listen  
Yeah (Wow)  
Yeah, yeah (Yow)

This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business  
This is none of your business
