

# Closer

Mario

I wanna get closer  
I wanna get closer  
I wanna get closer  
Closer to you

Cause if you come closer  
Cause if you come closer  
Girl, if you come closer  
There's so much we can do

Take it off  
Let's mess up the bed, don't make it up  
Separate your legs, two worlds apart  
Nobody does it like you  
Nah baby nah

Every night, don't stop  
Damn girl, you do me right  
Tell me, how you, know what I like  
Now I just can't keep my cool, yeah

I think me and you should skip the foreplay  
Baby I've been waiting on you all day  
Honestly, I think we had enough space girl

I wanna get closer  
I wanna get closer  
I wanna get closer  
Closer to you

Cause if you come closer  
Cause if you come closer  
Girl, if you come closer  
There's so much we can do

Wake it up, espresso, coffee  
Don't need a cup  
Put your lips on me, lick it up (lick it, lick it)  
Cause you the only one that turns me on

Never want you to go away  
I want you all in my face  
Need to know how good it tastes, baby  
Every night and every day  
I want you in every way

I think me and you should skip the foreplay  
Baby, I been waiting on you all day  
Honestly, I think we had enough space girl

I wanna get closer  
I wanna get closer  
I wanna get closer  
Closer to you

Cause if you come closer  
Cause if you come closer

Girl, if you come closer  
There's so much we can do

I think me and you should skip the foreplay  
Baby, I been waiting on you all day  
Honestly, I think we had enough space girl

I wanna get closer  
I wanna get closer  
I wanna get closer  
Closer to you

Cause if you come closer  
Cause if you come closer  
Girl, if you come closer  
There's so much we can do
