

Goes Like That

Mario

Baby, I'm in town
You know that I'll be in and out
I heard you're still around
Meet me at In-N-Out
I'll come to Inglewood
Then maybe we can smoke it out

Then you know what'll happen after that
When we rock out the vibe is automatic
If I stay would you promise to never go back?
You're surprised that I never told you that

I remember how it feels to love you
I think it goes like that
I wouldn't put anybody above you
I think it goes like that
I think it goes like that, I think it goes like that
I think it goes like that, I think it goes like that

Pull up to Lavender Blue
That's if you in the mood
I got the table for two
That's just for me and you, yeah
Then we can take the next flight out to B-more
I got my whole family ready to meet you

Then you know what'll happen after that
When we rock out the vibe is automatic
If I stay would you promise to never go back?
You're surprised that I never told you that

I remember how it feels to love you
I think it goes like that
I wouldn't put anybody above you
I think it goes like that
I think it goes like that, I think it goes like that
I think it goes like that, I think it goes like that

Bills paid for you, baby, it's my pleasure
You're my diamond, girl, but with me there's no pressure
I talked to God and I tell him "I finally met her"
He said "Boy, you gotta go get her"

Then you know what'll happen after that
When we rock out the vibe is automatic
If I stay would you promise to never go back?
You're surprised that I never told you that

I remember how it feels to love you
I think it goes like that
I wouldn't put anybody above you
I think it goes like that
I remember how it feels to love you
I think it goes like that
I wouldn't put anybody above you
I think it goes like that
I think it goes like that, I think it goes like that

I think it goes like that, I think it goes like that
I think it goes like that, I think it goes like that
I think it goes like that, I think it goes like that
