

Good Times

Mario

Oh yeah

Good times are coming, hold on to your fight
These days are nothing, where there's darkness there is light
Good times are coming, I know you heard that before
Remember those nights when you were just getting by, well you ain't gotta do
that no more

Oh what a feeling
You've got to feel it, I know
Oh what a feeling
Am I admitting too soon?

Don't make it hard when he sees it
You don't need a reason
To have a good time
You never have a good time
Don't make it hard when he sees it
You don't need a reason
To have a good time
You better have a good time
(Good time all night long)

Good times are coming, just one more sleepless night
Danger in the morning, I'm telling you, we're all gonna be alright
Good times are coming, don't let 'em take your light
When the sun goes down and dark comes on, we'll still be shining bright

Oh what a feeling
You've got to feel it, I know
Oh what a feeling
Am I admitting too soon?

Don't make it hard when he sees it
You don't need a reason
To have a good time
You never have a good time
Don't make it hard when he sees it
You don't need a reason
To have a good time
You better have a good time

I'm about to have me a good time
And you should have you a good time too
I'm about to have me a good time
And you should have you a good time too

Don't take it for granted
Your lite, my lite, we the one that admit it
Girl, we already winner, winner, finish
They gonna wanna ride on the wake

(Good times, good times, yeah)

Don't make it hard when he sees it
You don't need a reason
To have a good time

You never have a good time
Don't make it hard when he sees it
You don't need a reason
To have a good time
You better have a good time

I'm about to have me a good time
And you should have you a good time too
I'm about to have me a good time
And you should have you a good time too
