

MARS

Mario

We don't need gravity
Nah baby
Ooo

Be careful if you love me
I came here to make you see
But there's levels are you ready
I'm so ancient there's more to me

With you by my side we can cause some disruption
Open the sky we go high like it's nothing
Sure to cause an eruption while I'm going deep in
Now that you're open to explore baby I got you
Oooo

Let's take this trip we don't need no rocket ship
On the way to Mars
I'll give you air this gon' take your breath away
On the way to Mars
I know you really want to leave the way you're holding me
All we need is love we don't need gravity
Let's take this trip we don't need no rocket ship
On the way to Mars

You don't need them when you come
Just hop on my rockets up
Bounce up and down rotate that axis
Girl you can drop it low like a comet do some damage

With you by my side we can cause some disruption
Open the sky we go high like it's nothing
Sure to cause an eruption while I'm going deep in
Now that you're open to explore baby I got you
Oooo

Let's take this trip we don't need no rocket ship
On the way to Mars
I'll give you air this gon' take your breath away
On the way to Mars
I know you really want to leave the way you're holding me
All we need is love we don't need gravity
Let's take this trip we don't need no rocket ship
On the way to Mars

Don't hold nothing back for me
Don't wait for me girl I want you to go
I'll float through your galaxy
So now that we're here girl listen to your soul

Let's take this trip we don't need no rocket ship
On the way to Mars
I'll give you air this gon' take your breath away
On the way to Mars
I know you really want to leave the way you're holding me
All we need is love we don't need gravity
Let's take this trip we don't need no rocket ship
On the way to Mars
