

# Play Fair

Mario

Look

I know that it hurts, I know it takes time  
And you can't explain all the shit on your mind  
I know you exhausted, standin' in line  
Hopin' that God only sees you this time  
I see you attentive, paying attention  
Don't get tripped up on that shit in your mentions  
Girl, you a queen, you got me intrigued  
So let's keep this going and don't cut the scene

Tell me everything on your mind  
We don't need to waste no time, babe  
Can we skip to the love right now?  
Right now  
I know you ain't getting enough right now, babe

We could make this last, just be honest, baby  
You feel like a star when you on my stage, yeah  
So damn pretty, I love it  
Nigga can't tell me nothin'  
All I need is you and me, and baby, that ain't hard to see

Just lay there  
And stay there  
Forget about me, I wanna see you in first place  
So we don't have to play fair

But I'ma be honest  
You should be careful when we go there  
I wanna do whatever it takes  
Go out of bounds, flag on the play  
Got you screamin' loud, ah  
Loud as a crowd  
Don't stop now

We could make this last, just be honest, baby  
You feel like a star when you on my stage, yeah  
So damn pretty, I love it  
Nigga can't tell me nothin'  
All I need is you and me, and baby, that ain't hard to see

Just lay there  
And stay there  
Forget about me, I wanna see you in first place  
So we don't have to play fair

Want you to feel alive  
Ooh, once you feel my love  
Feel my love  
You can't get enough  
Girl, you know I love filling you up  
Yeah, woo  
That's all you need, baby
