

# Space

Mario

Hey  
You got that look on your face  
Like you still wanna play  
Come over to my place  
Let you into my space

I know we've been here before  
Time to switch up the mood (Ooh, yeah)  
When you wear that fragrance I adore  
Girl, it's hard to resist you, (Yeah, ooh)  
All this good energy that we got  
Gotta keep this one locked  
Girl, you ain't goin' nowhere

Forget my number, girl, here's my credit card  
You got a ass so perfect, shaped like a heart  
She got the top score inside this party  
Can't say I won't tell nobody

Say, hey  
Hey, you look like a good time  
You got that look on your face  
Look like a good time, all night, every night  
Like you still wanna play  
Even though you know it ain't no game  
So come over to my place, yeah  
Let you into my space

Uh-uh-uh, you walked in, took a look around  
It's all tens, but you eleven  
You stole my heart, that's two-eleven  
Got everybody lookin' at us  
Looking like Jet Magazine (Ooh)  
But, baby, you belong on a jet (You belong on a jet)  
Take you outer space with me  
Soon as you're in my bed, ooh

Have you ever seen (Have you ever seen)  
My place? It's so exciting (My place, it's so exciting)  
You know you're invited (Invited)  
So we can spark it up like lightning  
When the world so cold, girl, you keep me warm inside  
Best you ever had, you know I'd give you the world  
I got you, sayin'

Hey  
Hey, you look like a good time (Ooh)  
You got that look on your face (Yeah)  
Look like a good time, all night, every night (You look like a good time)  
Like you still wanna play (Ooh)  
Even though you know it ain't no game  
Come over to my place, yeah  
I wanna let you in  
Let you into my space

Forget my number, girl, here's my credit card (Take it all)  
You got a ass so perfect, shaped like a heart (Gettin' started)

She got the top score inside this party (I just wanna party)  
Can't say I won't tell nobody (Ooh)

Say, hey  
You got that look all on your face  
Like you still wanna play  
Come over to my place  
Let you into my space
