

## You 101

Mario

I wish I could read your mind, but I can't  
Get on the bed and open that book  
Turn up the lights a little brighter  
I'm tryna memorize you so good

That I can close my eyes  
And touch every line  
I just wanna try  
Yeah  
Every night

Even if I'm not the one for you  
I just might be for the night  
Perform the best that I can  
I wrote the notes inside of my hand  
Can't read them from sweat  
But I can't forget  
Ooh-oh  
No, I can't forget you

I've been studying for too long  
If you wanna test me, then come  
Come on  
I can teach a class  
On your body

All over your body  
All over your body  
All over your body  
All over your body

Yeah  
You got the best class, and I love it  
I graduated and never gave up  
I got the "A". I learned it so good

That I can close my eyes  
And touch every line  
I just wanna try  
Yeah  
Every night

Even if I'm not the one for you  
I just might be for the night  
Perform the best that I can  
I wrote the notes inside of my hand  
Can't read them from sweat  
But I can't forget  
Oh  
No, I can't forget you

I've been studying for too long  
If you wanna test me, then come  
Come on  
I can teach a class  
On your body

All over your body

I know you're glad that I stayed  
My favorite class, by the way  
Wait 'til I graduate
