

# Lights Down Low

Marion Aunor

We don't talk much  
But we're in love  
But if we don't talk much  
Was that enough

'Cause I wanna know you  
I wanna know you so bad  
Won't you come let me through you walls  
'Cause I'm gonna love you despite it all

So turn the lights down low  
I will get to know  
All the secrets that you refuse to show  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low

So let's seek what we got left to hide  
It might take time but we've got the night

'Cause I wanna know you  
I wanna know you so bad  
Come let me break into the walls  
I promise to love you despite it all

So turn the lights down low  
I will get to know  
All the secrets that you refuse to show  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low  
Turn the lights down

Turn the lights down low  
I will get to know  
All the secrets that you refuse to show  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low

Turn the lights down low  
I will get to know  
All the secrets that you refuse to show  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low

So undress  
It's the only way I feel you connect  
So confess  
To the moment when you bring out my best  
Let's get lost inside these walls  
Let's fill in  
All the words within the silence we're in

Let's breathe in  
Find the light within this darkness we're in  
Let's get lost inside these walls

Turn the lights down low  
I will get to know  
All the secrets that you refuse to show  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low

Turn the lights down low  
I will get to know  
All the secrets that you refuse to show  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low  
Turn the lights down

Turn the lights down low  
I will get to know  
All the secrets that you refuse to show  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low  
Turn the lights down low
