

Take A Chance

Marion Aunor

Breaking on the ground
Silence all around
Thinking to myself
Never ever wanna be found
Not now

But living everyday
Finding my own way
What's the point in finding someone
If you know that
They will not stay

I was still looking out
For that some kind of wonderful
But you would not give up on me
You would not let go

Thought I wasn't cut out
For that some kind of wonderful
But you refused to believe

You said baby I wish you could see what I see
Coz lately I felt like your all I'd ever need
And baby there's nowhere else I'd rather be
So maybe you could take a chance on me

Baby I'm afraid to make the same mistakes
Maybe I'm just tired of all the promises
That love makes
That love breaks

Everytime I try to let myself believe
I end up with another reason I should leave
I do you know if something is worth saving

Now was done looking at
With that some kind of wonderful
But you would not give up on me
You would not let go

Thought I wasn't cut out
For that some kind of wonderful
But you refused to believe

You said baby I wish you could see what I see
Coz lately I felt like your all I'd ever need
And baby there's nowhere else I'd rather be
So maybe you could take a chance on me

You said baby I wish you could see what I see
Coz lately I felt like your all I'd ever need
And baby there's nowhere else I'd rather be
So maybe you could take a chance on me
