

The First Time I Loved Forever

Marion Aunor

The first time I loved forever
Was when you whispered my name
And I knew at once you loved me
For the me of who I am

The first time I loved forever
I cast all else aside
And I bid my heart to follow
Be there no more need to hide

And if wishes and dreams
Are merely for children
And if love's tale for fools
I'll live the dream with you

For all my life and forever
There's a truth I'll always know
When my world divides and shatters
You love is where I'll go
