

You Don't Know Me

Marion Aunor

You don't know me
You don't know me
You were there but you didn't know me
Said you care but you were busy
Filling rooms with your harsh light
That I always found
Oh so gloomy
Your way with words how they threw me
Into spirals
Into riddles
Into mazes
I thought I wanted to explore

Well darling this is chaos
I think we've reached a discord
And it's more than my heart can afford

You don't know me
Still don't know me
Never bothered climbing walls
Feel demolished even though
You never got that far at
All over the place
Are you and I
All over this phase
Are you and I
You take left and I'll take right
Baby I'll see ya on the other side

Well darling this is chaos
I think we've reached a discord
And it's more than my heart can afford

You don't know me
Still don't know me
Guess you'll never really know me
It's too bad cause really baby
It's your loss after all

Well darling this is chaos
I think we've reached a discord
And it's more than my heart can afford

Well darling this is chaos
I think we've reached a discord
And it's more than my heart can afford
