

# You'll Get Up Again

Marion Raven

It's a 12am call  
Don't hang up  
I just need to know where you are  
Don't hang up  
I can feel that you're in trouble  
And you always used to place your trust in me

You know I drove all over town  
Don't hang up  
I'm gonna find you, track you down  
Don't hang up  
I don't care about the smalltalk  
I just wanna tell you words that you need to hear

You go off like a bullet  
And you fall like a rug  
You give it one good shot  
And you give what you got  
You fall into the dark  
But you shine like a star  
And everybody's just running  
When you push it too far  
Not me, baby, not me  
Cause can I see just who you are

I am on my way  
Don't hang up  
Stay right there where you are  
Don't hang up  
Cause I know just where to find you  
In the dark you hide the shadow of yourself

You go off like a bullet  
And you fall like a rug  
You give it one good shot  
And you give what you got  
You fall into the dark  
But you shine like a star  
And everybody's just running  
When you push it too far  
Not me, baby, not me  
Cause can I see just who you are

Not me, baby, not me  
Cause can I see just who you are  
I will catch you in my arms if you fall  
You can always count on me  
Let's forget the handwriting on the wall  
It will never set you free

You go off like a bullet  
And you fall like a rug  
You give it one good shot  
And you give what you got  
You fall into the dark  
But you shine like a star  
And everybody's just running

When you push it too far  
Not me, baby, not me  
Cause can I see just who you are
