

# Interlocking

Marissa Nadler

Tried to live without you, baby  
I should know that by now  
Every day's a bad day  
And I've been so down

But I saw you walking  
Saw our small lives interlocking  
I've been tethered to this town

Trouble's been following me  
Trouble's been following me  
Trouble's been following me  
Are we forever bound?

Is it just the memories  
That keep me planted here?  
Did every sea and rode I saw  
Shine brighter with you, dear?

But I saw us walking  
Saw our small lives interlocking  
I've been running out of fear

Trouble's been following me  
Trouble's been following me  
Trouble's been following me  
Are we forever bound?
