

## Nothing Feels the Same

Marissa Nadler

I am alive, I can't see you  
With the clouds of dust and the dim light of the muted moon  
Lying on the ground  
Where our house used to be  
The birds are walking round  
Codes washing over me

Nothing feels the same [x3]  
I don't know where we are  
I don't know my own name

I remember loving you  
I recall the times  
How we passed the winters  
Watching as the snow climbed  
Lying on the ground  
Where our town used to be  
Some strange particle  
Floats by my periphery

Nothing feels the same [x3]  
I don't know where we are  
I don't know my own name

I have the light, I have the light  
And I saw you, in the next  
We were cosmos in the afterlife  
{x3}

Nothing feels the same [x3]  
I don't know where we are  
I don't know my own name
