

You're With Me

Marit Bergman

It's a lucky day for pretty melodies
It's a lucky day for making history
The world is dressed
To look it's best
In the brightest shade of blue
It's a lucky day for everyone but you

You hear the sweetest songs
But the strings play out of tune
You hear the sweetest songs
But you just lost the groove
I know what you feel
Just lean on me
I'll hold you for awhile
And now give me all your wrongs
I'll make them right

You're with me
(And that's just how it needs to be)
You're with me (it's as easy as 1-2-3)
We might be gone tomorrow
That's what we don't know
So until we leave, let's stay naive
Let's play it anyway now
You're with me

So don't worry now
I am taking care
Just let it go, just let them stare
If you're falling I am catching you
Oh baby I'm right here and if you
Want me to I'll take you anywhere

'Cause you're with me...

You're with me
(And that's just how it needs to be)
You're with me (it's as easy as 1-2-3)
And nothing can get to you now
I'm protecting you now and
If they try to tell you what to be
Just tell them go to hell
'Cause you're with me!
