

Steal My Heart

Marit Larsen

If you are going to steal my heart
Steal it like you mean it
If you want to take a part
Then give me something to believe in

'Cause the road it ain't getting longer
And my heart it ain't getting younger
For now, the love that we make it's a razorblade
And I don't want to hurt any longer

Steal my heart

Let me hear it in you voice
Let there be no question
Leave me with no other choice
Then open up to let the light in

The road it ain't getting longer
And my heart it ain't getting younger
For now, the love that we make it's a razorblade
And I don't want to hurt any longer

Steal my heart

I'm crazy about you
So lonely without you
I love you, I love you, I love you

Away with the trouble
I'll just make it simple
I'll be anything that you want

So if you want to break my heart
Break it like you mean it
If you want our ways to part
Then turn away so I can see it

'Cause the road it ain't getting longer
And my heart it ain't getting stronger
Oh the road it ain't getting longer
And my heart it ain't getting younger
For now, the love that we make it's a razorblade
And I don't want to hurt any longer
