

Catch Me

Mark Battles

You dawged on me but look around
Woo
I've been chasing dreams and I'm only getting bigger
Had your fun
Who's laughing now
Woo
Doing something with my life
Like you never did go figure
Now you tell me that you're proud
But you're the same person who tried to pull me to the ground
You thought that that shit was funny but now that I'm making sound
You switch up
Try to be my buddy buddy
But that is just how you're acting now
And just know that I don't give a fuck about it
I made a mental list of everybody who had doubted
Now that I'm making moves
Everybody cares that you
Went to the same high school
Cuz they know that they can front about it
I've been working my ass off to build up where I'm at today
Ain't no mother fucker ever getting into my way
I've been loved I've been hated
Got my name mad degraded
I've been bullied got in fights
I've gotten death threats every night
Been writing 16s since I was 16
Can't get a word out otherwise because of my stuttering
Overcame the odds and became who I couldn't be
Now I've got Futuristic and Mark Battles calling me
Ay

Catch me gone with the fake
Gone with the fake
Gone with the
Gone with the fake friends
Catch me down in the stu
Down in the stu
Down in the booth
I ain't here to make friends
Catch me making big moves
Making big moves
Make it big
I don't think I'll ever lose
Catch me living the life yall said I could never go live
Everything you ever doubted bitch I did

Why the hell they wanna doubt a nigga
Cuz this rap game ain't doing shit without a nigga
Really started from the bottom now I'm counting figures
Used to have big dreams now they sounding bigger
Uh
I want a mansion with a hundred acres
They love how I rose up like the undertaker
I'll let you keep your bitch I don't wanna take her
So be grateful I just did your ass another favor
I love my fans and I love haters

Watch the money come together like a fundraiser
Whole crew going stupid getting dumb paper
You be you I'll be me have your fun player
Game over nigga case closed
I'm in the Massi going 90 down a state road
This the only life I dream then it straight goes
I even work the off season like I'm J. Cole
Woah
Who the hell are you
I'm independent and ain't nothing you can help me do
Uh
A nigga self made
And I've been on my shit since the 12th grade
