

Hustle

Mark Battles

Time to run it up
Guess I gotta hustle more
Won't be no surprise, all the guys on one accord
I just gave your bitch the magic stick like Dumbledore
Bitch I want it all, whatchu think we hustle for?
Aye
Aye
Whatchu think we hustle for?
Made a couple mil, now I want a hundred more
Make the call, you want the ball, you gotta run the floor
Really from the bottom, whatchu think we hustle for?

I'm state to state
PA plates
Tip the scale, get yo weight up
Done workin for the man, when you trap you don't take a pay cut
Uncle Sam can suck a dick, Colombus too
I been grindin like a bitch, when I'm comin, bring me the loot
Shoot
Coupe, blast 'em
Windows down, he said he down, he not around
They only love ya when you come around
You wasn't in the trap with rats, my homie turned it got me mad
Catchin flights no extradition
Drugs, I got a problem with em
My mental blocked, heard the shots
Seen that Lincoln creepin, whatchu know?
Grab the pole, pull up slow
Battles said it's time to go
Whatchu think we really fucking hustle for?
Tom Ford lenses with 200 on the dash
Seen him crash out, go spazz out
Air it out, we ballin Jokic
I need potions
Whatchu think we hustle for?
I been the coldest, you should know this
Trap it out, show em how
Hustle hard, we workin hoe
I be in your city grindin
Whatchu think we hustle for?

Time to run it up
Guess I gotta hustle more
Won't be no surprise, all the guys on one accord
I just gave your bitch the magic stick like Dumbledore
Bitch I want it all, whatchu think we hustle for?
Aye
Aye
Whatchu think we hustle for?
Made a couple mil, now I want a hundred more
Make the call, you want the ball, you gotta run the floor
Really from the bottom, whatchu think we hustle for?
