

Power

Mark Battles

Ay, ay, ay
Spitter, how you up, my nigga?
I got the power
I got the power

Don't talk about old battles, I really just got my powers
Been in the stew for hours, just make sure the drums is louder
Pissin' on all these beats, I gave it a go to shower
You think your shit fuck with ours, you probably be snortin' powder
Feelin' so groovy, baby, maybe I'm off some powers
Got love for all my doubters, one day I'll come get my flowers
Ooh, mommy a freak, she nasty as clam chowder
Take me a damn shower, then back to the money counter
Bro, when I was broke, you crossed me just like a coward
Now text my accountant to hundreds, just buy the thousands
Probably go buy an island, my exes gon' swear I'm childish
Left with a foreign freak that be drinkin' me by the gallon
The main reason we smilin', I did it all with my talent
Never said it was easy, the shit was like movin' mountains
The challenges keep a balance, coaches forgot to scout us
R.I.P. my brother Peanut, I hope I made him the proudest

Power, yeah, yeah, yeah, power
I got the power, yeah, I got the power

One phone call, make your house fall
Watch your mouth, dawg, you round some outlaws
When I hop out cars, homies got guns drawn
Shit be goin' on, and it be hellas wrong
Word to my dead ones and my posse that's still alive
Wildin', I'm outside beside them, smokin' fire from my pile
Of flossin' on enemies, protect my energy, stackin' dollars
Since she into me, but I don't think she want all these problems
Cause I be a platinum, I'm not stoppin'
There's never an option, go and get it
Hustlin' even after I got it, never over
I want a yellow Testarossa, a box Chevy with a Corvette motor
Took a speedboat to the studio, now rollin' up on another sofa
Lightin' up that motherfuckin', that motherfuckin'

Power, yeah, yeah, yeah, power
I got the power, yeah, I got the power
