

## Pressure

Mark Battles

Look see I came from the gutter  
The struggle and the pain  
Got the game from my mother  
Don't care about the fame  
I ain't changing for nothing  
Now I got this name I think niggas are in trouble  
I got a smart mouth it use to get me into tussles  
Squad about the bubble all the homies in a huddle  
You never got to owe me if you know me I'll plug you  
The way I cross niggas those niggas feeling puzzled  
I hustle for a chance I'm about to get it poppin  
Like Usher when he dance  
Now they shuffling their hands  
You loosin it again  
That nigga Kalin and Jenner they just use to been the man  
But now it's my time for the groupies and the fans  
Motivated by the night I was sleeping in a van  
Our guy fly die is what I'm preaching to the clan  
Under pressure shouting out loud J  
Massages from a Goddess say she love me cause I'm honest  
From bumb me to acknowledge and it yakee and she swallows  
Lucky cause I'm jogging and we running through the options  
It's good lines just like I'm bosley  
Ha for the pressure for the pressure yea

Wake up in the morning feeling like a million  
Haters want to kill me all mad because I'm still a don  
And I ain't having none got the juice like  
Shout to the fans and surfing through these hustle raps  
One day we will paddle that ain't about that back to back  
Apple dug a rat a tat and jelly coming after that  
And we ain't going to change for what  
I think these guys hackling up  
25 city tours and we set in a month  
The bar guy flow retarded am I special or what yea  
Shit why you all in a hurry  
Am a warrior leave the team Steph Curry  
She ain't good young man don't worry  
Made that 3 fifteen fell in love at 3 thirty  
Surely they get scary in the boothe  
By 6 start to spec call fairy for the tooth  
Am just sharing you the truth  
Pop a cherry then I scoot  
And conquer everything they was telling me to do  
How the game sound with out me  
Them niggas in the crowd the same ones that use to doubt me  
Do you know my name man oh my memory is cloudy  
Got a couple hundred mills then I'm outie read about me  
About us to the pressure  
For the pressure yeah
