

# PUT ME DOWN!

Mark Battles

You gonna come put me down?  
Sike, I make 'em all sing like a symphony  
Man, I ain't yo friend or yo' enemy  
But if you want smoke I'm a chimney  
You gonna come put me down?  
I'll give you that same hate you givin' me  
I promise you'll start to think differently  
Ion play I'm dysfunctional

Don't get too comfortable  
I'm that guy that come from under you  
No excuses in my grind  
I came from nothin' dude  
Let me be the one to humble you  
Ooh, make you lose your mind  
You can not measure me based on your previous assessments of other niggas that you've fucked with  
There's a lesson here and I'm destined to be the messenger let me teach you on the subject  
I am the one, but I ain't the one, don't you ever get it twisted  
I have 5 kids and a wife so I'm hungry for 7 and you are lookin' like chicken  
I never needed a crown or a throne to feel validated in my world as a king  
I never needed a father to teach me how love and show my kids they human beings  
I never needed to hold anybody hand lookin' for someone to come and discover me  
I never needed a reason to be myself, bitch I deserve this I'm here for the fuckary  
I paid my homage and dues, but if you comin for me you won't be safe from my wrath  
Shit I have nothin to lose, and everything to gain, you can go and do the math  
Man, nigga

You gonna come put me down?  
Sike, I make 'em all sing like a symphony  
Man, I ain't yo friend or yo' enemy  
But if you want smoke I'm a chimney  
You gonna come put me down?  
I'll give you that same hate you givin' me  
I promise you'll start to think differently  
Ion play I'm dysfunctional  
That's on my mama

Yo, I tend to do it in a different way  
Bitch I'm like a bench warmer 'cause I never play  
Yesterday I made a bag off of settin' plays  
Time to knock it out the park like I'm Willie Mays  
Gettin' rich off killin' shit, crime really pays  
I can show you how to get a mill a milli ways  
It's time to blow, let's rock n roll like I'm Billy Graves  
My OG told me keep my heat just for chilly days  
Aye, a cold world that we livin' in  
Never gave a fuck  
To God we Trust  
His name is Benjamin

Started then I finished it  
Ballin' like I'm Middleton  
Open doors for you bitch ass niggas I'm a gentleman  
It's Battles

You gonna come put me down?  
Sike, I make 'em all sing like a symphony  
Man, I ain't yo friend or yo' enemy  
But if you want smoke I'm a chimney  
You gonna come put me down?  
I'll give you that same hate you givin' me  
I promise you'll start to think differently  
Ion play I'm dysfunctional
