

## Savior / Now You Know

Mark Battles

I mean if you going to do it you better do it right you know what I mean  
Its coming out pure yea nah man look  
I'm telling you we not worried about these niggas  
We just going to do what we do  
You know everything is going to fall into place  
Yea just trust me yea yah

Wake up in the morning  
And I wash my nuts off niggas acting chick  
Spread them all in duck sauce  
Just to know what's up dog  
I would never trust you because  
My nigga brain broke always trying to bust off  
The hell with you I don't sugar coat I tell the truth  
I got a penny stomach feeling empty  
I wonder why we fell in school  
Drug dealers feeling too  
Racket holes that will suck the crew  
Plastic soles and rubber shoes  
Man this is like nothing original  
You all just ticking news clips  
This is how we gotta live  
Left alone with three kids  
Don't know where the father is  
No MTV they robbing big  
City full of hostages in the mind they trapped  
So in the trap they moving ostridges  
Born without a pops to piss no extra on the shopping list  
Spending 5 and pocket 6  
Finished line we carbon kicks  
Dinner time with foxy chicks  
Quit the lying it make me sick  
Duffle D on every hit I'm up to 3's they can't forget  
Do the things you can't predict  
Remove the springs and spray the whips  
Who the king you can't be it  
Make me laugh or make me rich

Oh Lord we ask you for forgiveness  
I'm praying for the ghetto children  
With their fathers missing  
Like Lord I think we need a say  
I beg you for an angel cause you know  
These times are painful  
Like Lord Lord thank you for saving me  
Like Lord Lord thank you for saving life  
Like Lord Lord thank you for saving life  
Like Lord Lord thank you for save

So many lies I'm numb to it  
You trying to block me by surprise  
And I run through it young cupid heart big as  
Lex Luger never dream of Fred Krueger  
Traumatised the head southing do it once and keep moving  
Huge enough to sweep units  
Groupie sluts and cheap sushi  
Brain in a rush don't sleep usually

Down with us you gotta prove it  
Its kinda stupid I assume this is the hottest movement  
These times are gruesome so I use my voice to preach them  
And improvement don't use the useless cease the shootings  
He going to see us through it yea we can do it  
Seeming clueless hope I'm speaking fluent  
It ain't a choice I feel I gotta cause I'd rather save a life  
Than a dollar that's my honour in these battles
