

Slanted

Mark Battles

Fool me once, shame me twice
I can't be wasting my time
Broken heart, I felt the pain
And then I mixed it with wine
Causing stress all the time
This the end of the line
Now that you're with someone else
It's like I'm free of my cell
Woah ohh ohh
Hoes just pass around I pay no mind
Got no time for love

Walking with my head up
Stack this cash til it's slanted
Heart been tampered, love dispensed it
Flags were like the red lights
Had me stuck in transit, took my chances
And it ends in a heartache
Learned my lesson only one to blame myself
Wouldn't change a thing or two you only played yourself
Too many lies and fairy tales that have invaded my mind
I turned my back a fucking waste of my time

Uh
I'm gliding like some roller blades
Making money lil honey give my flow a praise
I, I used to love you in my younger days
Now the only thing I love is getting fucking paid
Make a couple plays grind and see the sunny days
Now all the bread is honey glazed
I cut you off cause of your funny ways
How many mistakes can a dummy make
See I'm running up the bag now
I bet you're mad I'm making more than your dad now
Hands down or hands raised I'm the champ now
The man now and I will never let my camp down

Walking with my head up
Stack this cash til it's slanted
Heart been tampered, love dispensed it
Flags were like the red lights
Had me stuck in transit, took my chances
And it ends in a heartache
Learned my lesson only one to blame myself
Wouldn't change a thing or two you only played yourself
Too many lies and fairy tales that have invaded my mind
I turned my back a fucking waste of my time
