

## Watch Me Work

Mark Battles

Mama told me that life ain't fair  
Ain't get much from my pops cause he wasn't there  
Want it all for myself, I'm just learning to share  
Done offering my help, hope you niggas prepared  
Better get you a chair, you will notice that I'm physically rare  
Kill these weak rappers off just to show that I care  
I swear, I took it easy for a minute  
And want repeat of my CD, you should meet me at the clinic  
It's tinted like she'll leave me if it's rented  
And I don't think she need me she just keep me for the image  
Yeah I know it's pitiful, pick them out, send a few  
Get in mine, finish line, like I'm selling tennis shoes  
First you wanna ridicule, now you want to interview  
Changing to a different dude, a monster when I'm in the booth  
Popeye sip this spinach juice, liars know I been the truth  
All of them just missing proof, the key is how you get it lose  
You see, doubting is a no-no, hurt them with the slow flow  
Do it for the promo, kill a nigga with three sixteens, cause I'm stoned cold  
The shows sold ticket sales by the boat load  
If she cute she can have it, when she blew me, was magic  
Sent Frank Lucas a package  
Got the status from my habits cause I'm truly a savage  
I'mma drive 'til we fill up, stay away from the captain

Watch me work nigga, just watch me work  
Yo, yo, yo, yo  
Watch me work nigga, just watch me work

Yo, I'm by the booth, Superman alive  
And now I do the things that I used to fantasize  
Grew up in the city where they kill you over pride  
Man, I ain't been the same ever since my brother died  
I'm looking for a reason to quit  
All that hate turn to love but they seem to forget  
Don't expose your whole hand only show them a glimpse  
Understand who I am before you open your lips  
Getting close to the cliff, I'm 'bout to push  
Making major waves, in a year, I got them shook  
The way I make your pay disappear, I'm like a crook  
How you make the fans scream and cheer without a hook?  
Nigga I should write a book, look  
The hell with cancer, took my granny out for good  
Gotta make my momma proud and get my family out the hood  
You the only one that shocked, cause I always knew I could  
I done ran through all these niggas, think I'm hanging out with Suge

Watch me work nigga, just watch me work  
Yo, yo, yo, yo  
Watch me work nigga, just watch me work
