

# Watch Me

Mark Battles

Lord, I really need it  
At church any given Sunday, really beaming  
Quiet on the surface, inside I'm really screaming  
Money's the root of our evil, my pocket's filled with demons  
See, I'm trying to figure out  
How to get rich cause the hood I'm dying to get up out  
See, a lot or without, it's what the rhyme's been about  
Get my mind get it up out, at least find a different route, look  
See, I don't ask nothing just feed it to the mass public  
Where my cash coming, they messing around like bad husbands  
See me, nah, I ain't in the playing mood  
Rappers better stay in school, you must got the day confused  
Never chill talk or mills like I'm making food  
Grind, creating major moves, I'm on that daily news  
And I ain't worried about these hating dudes  
Go find somebody else, no time to play with you  
It's probably just obvious I'm on my grind  
Y'all found it a while back I'm a wild cat like John Wall  
I grind, dog, and it's making you upset  
You hating so what's next, me making these bucks, yes

Jump up in the car and we punch it to the top speed  
I can sell you a little swag but it's not free  
And my team don't fear cause they got me  
Get a name this year, you can watch me, watch me  
All ya'll, you can watch me, watch me  
All ya'll, you can watch me  
Must got a blindfold, you cannot see  
Don't and watch TV just watch me

Watch me, you will be impressed (you will)  
I'm kind of better than the rest  
I done made a couple checks  
Now I'm getting texts and missed calls from my ex  
She say that she miss me  
But I ain't trying to hear it  
Always working, no time to listen  
Need a couple racks if you want my appearance  
I'm coming for the chair  
Going to the top, then guess I made you deaf  
Coming where I'm from, they don't think it's fair  
That the kid pushing car that he can barely steer  
My car filled with women  
No more shopping under clearance  
From the hood to here, it's a distance  
So I'm guessing that we did it

Jump up in the car and we punch it to the top speed  
I can sell you a little swag but it's not free  
And my team don't fear cause they got me  
Get a name this year, you can watch me, watch me  
All ya'll, you can watch me, watch me  
All ya'll, you can watch me  
Must got a blindfold, you cannot see  
Don't and watch TV just watch me

Imma go go, go go go get it

Go go, go go go get it

Imma go go, go go go get it  
Go go, go go go get it

Imma go go, go go go get it  
Go go, go go go get it

Imma go go, go go go get it  
Go go, go go go get it

Jump up in the car and we punch it to the top speed  
I can sell you a little swag but it's not free  
And my team don't fear cause they got me  
Get a name this year, you can watch me, watch me  
All ya'll, you can watch me, watch me  
All ya'll, you can watch me  
Must got a blindfold, you cannot see  
Don't and watch TV just watch me
