

# Water

Mark Battles

Start my day drinking water  
Wash my sins in the water  
I just float like it's water  
Only take what is offered  
I didn't make all the rules up  
Baby, I'm just an author  
All this sweat dripping off her  
I just float like it's water

Start my day drinking water  
Wash my sins in the water  
I just float like it's water  
Only take what is offered  
I didn't make all the rules up  
Baby, I'm just an author  
All this sweat dripping off her  
I just float like it's water

Slip and slide til it drenches  
My grass green don't look over fences  
Get my buckets come off of the benches  
They keep score in other dimensions  
She talks slick shit all through my mentions  
I never did good with attention  
Take deep breaths releasing the tension  
Why you keep receipts in a friendship  
When the clouds come I do a rain dance  
Smoking out back with all the stage hands  
Out of state treated like the state champs  
Missed a meal but I don't miss a chance  
She won't stress me and I don't complain  
All this motion that we can't contain  
Horizons getting broader  
I just float like it's water

Start my day drinking water  
Wash my sins in the water  
I just float like it's water  
Only take what is offered  
I didn't make all the rules up  
Baby, I'm just an author  
All this sweat dripping off her  
I just float like it's water

Start my day drinking water  
Wash my sins in the water  
I just float like it's water  
Only take what is offered  
I didn't make all the rules up  
Baby, I'm just an author  
All this sweat dripping off her  
I just float like it's water

I just float like it's water  
Babe I'm feeling so drippy  
Named the king of my city  
The ocean view is so pretty

Can have her back it's no biggie  
All these hoes is so iffy  
She want it bare no grizzly  
Life ain't fair ask Iggy  
Keep coming back no frisbee  
But I'm off to do my thang  
Chasing dreams I won't complain  
Darkest thoughts like I'm Cobain  
All the pain make you insane  
A lot to gain if you did change  
Live and learn it's a quick game  
Don't get a scope you need quick aim

Start my day drinking water  
Wash my sins in the water  
I just float like it's water  
Only take what is offered  
I didn't make all the rules up  
Baby, I'm just an author  
All this sweat dripping off her  
I just float like it's water

Start my day drinking water  
Wash my sins in the water  
I just float like it's water  
Only take what is offered  
I didn't make all the rules up  
Baby, I'm just an author  
All this sweat dripping off her  
I just float like it's water
