

When I'm Back

Mark Battles

I was caught up in a trap
Thank the Lord God bought a nigga back
Fought to win a lap
When you get behind in the race, switch the pace, homie, all this is
a fact
All you niggas cap
It been getting worse in my city
And they envy, so I bought another strap
Cautious but relaxed, bosses don't react
Gotta get this money on the road, I'ma call you when I'm back in the
nap

In the clouds, don't ask me where I'm at
In the mirror it's a mask staring back
So I wear a hat (Real)
Hard to try to keep yourself whole when this cold world must be shari
n' scraps
What's the fair in that?
Gotta get your money
Little nigga in the jungle, they say every bear attack
'Cause everywhere a trap (Yep)
I don't trust nothing, where I'm at
Need a couple million buried in the back
New Benz cherry black
I might really have to flex on these niggas
Round for round, I can't let you get the best of me, nigga
This ain't a dream, it's my destiny, nigga
Might have been a no for you, but it's a yes for me, nigga
Test getting bigger, highs and lows with these type of goals
When the days get dark, you the type to fold (Fold)
The way I stood ten toes, I could strike a pose (Mmm)
But I wouldn't sell my soul for the price of gold, no

I was caught up in the trap
Thank the Lord God brought a nigga back
Fought to win a lap
When you get behind in the race, switch the pace, baby, all this is a
fact
All them niggas cap
It's been getting worse in my city
And they envy, so I bought another strap
Cautious but relaxed, bosses don't react
Gotta get this money on the road, I'ma call you when I'm back in the
nap

Oh yeah, yeah, yeah
Oh yeah, yeah, yeah (Don't look back)
Oh yeah, yeah, yeah

Oh yeah
